

As President of the Interact Club at Fravashi International Academy, I worked to expand both the scale and impact of our initiatives. Under my leadership, membership grew by 37%, making it one of the largest student-led clubs in the city. I spearheaded community projects that directly impacted over 1,000 beneficiaries, ranging from literacy drives for underprivileged children to rural health camps that provided essential medical access in underserved areas.

We collaborated with local NGOs to organize donation campaigns for books, clothes, and sanitary products, ensuring inclusivity across age and gender groups. I also emphasized youth leadership within the club, encouraging members to design and execute their own service projects. These efforts earned us multiple honors, including the prestigious Rotary Presidential Award, the Khandve Trophy, and recognition as the best Interact Club in Nashik city.

Beyond measurable impact, my focus was on cultivating empathy and responsibility in my peers. I mentored younger students in leadership and project planning, ensuring the club continues to thrive as a platform for service and innovation long after my term.
